

# STP Training Report

The Fish Nutrition, Biochemistry and Physiology (FNBP) division at ICAR- CIFE, Mumbai organised a six days Short term Training Programme (STP) on “Entrepreneurship Development in Ornamental Fish Feed” from 15-20th July, 2019. A total of eight participants attended the training programme. The trainees were taught about different types of feeds preparation for ornamental fish such as-sinking, semi-sinking pellets, flake diet, Micro-pellet feeds etc. The participants were from Maharashtra, Gujarat, Uttarakhand and Telangana for this hands-on training programme. Overall training was highly successful and was completed with positive feedbacks from participants.
