

THREE MONTHS
SKILL DEVELOPMENT
CERTIFICATE COURSE ON

“BRACKISHWATER
AQUACULTURE AND
MANAGEMENT PRACTICES”

BACKGROUND

ICAR-Cife Kakinada Centre specializes in training for brackishwater and freshwater aquaculture and has significantly contributed to the "Blue Revolution" in Andhra Pradesh through its HRD, extension, and research efforts. The shortage of skilled technical personnel in hatcheries and aquaculture facilities is negatively impacting the entire country's aquaculture sector. To address this issue, ICAR-Cife is launching this three-month certificate course to generate qualified professionals for the aquaculture industry.

OBJECTIVES

To supply the aquaculture sector with skilled manpower who can effectively oversee brackishwater aquaculture operations, meeting industry demands and ensuring long-term productivity.
